

JOB DESCRIPTION: SECURITY OFFICER

Tel Yehudah, Young Judaea's national teen leadership camp, seeks a reliable Security Officer to manage all security matters at our large Jewish summer camp in Sullivan County, New York from mid-June through mid-August. The ideal candidate for this position has a background in security or military service and a strong professional disposition.

Essential Job Functions:

- Perform scheduled and random checks in designated areas throughout the facility to check for any security breaches or concerns.
- Coordinate with the office manager to ensure that all visitors are properly documented and visitor identification as well as parking permits are issued.
- Coordinate with the operations director to ensure all vendors are authorized to be on the property.
- Patrol the perimeter of the property, as well as interior buildings during assigned times.
- Coordinate with local law enforcement on a weekly basis to keep apprised of any local threats or concerns.
- Coordinate with local law enforcement during emergency situations, act as point of contact between the organization and local law-enforcement during these times.
- Patrol bunk areas during overnight hours to ensure campers remain in their assigned living quarter.
- Present security protocols and procedures to all staff members and campers at the beginning of each session and offer refreshers throughout the season.
- Coordinate all security-related drills, exercises and training.
- Ensure security and safety to all people and property on the property during the season.

Requirements:

- Security and/or military experience with a strong background in security procedures and protocols
- Firearms training preferred.
- Ability to accept guidance and supervision
- Demonstrated ability to perform essential functions under pressure
- Demonstrated ability to work cooperatively as a team member
- Willingness to reside at summer camp for entire camp period
- Applicant must be at least 21 years old and either a college graduate or military veteran
